

Wilson Expected To Sway Allied Views on Russia

Policy Toward Bolsheviks May Be Left With the United States

By Arthur S. Draper
(Special Cable to The Tribune)

LONDON, May 22.—A Conservative evening newspaper, "The Globe," takes up the suggestion of this morning's "Chronicle" that the Allied policy toward Russia be left in President Wilson's hands. Neither newspaper pledges its unqualified support to whatever policy President Wilson adopts, but both hold the opinion that the Japanese should intervene, and they suggest that President Wilson take the initiative.

Japan is meanwhile marking time, and possibly has intimated that she would like an invitation to intervene to come from the United States. The Russian problem requires the immediate attention of the Allies, for the latest news from Moscow is that the Bolshevik convention has "triumphed" over the extreme right wing of supporters of the policy of the Japanese orientation.

Definite rejection of the idea of consenting to Japanese help means the failure of the present Allied policy and puts the whole Russian question again in the meeting point. Until now the Allied policy has been compromise. England, France and Italy have wanted immediate and unqualified intervention, while President Wilson has advocated leaving Russia to find its feet alone. Finally a compromise was agreed to that if the Allies were able to obtain Russia's consent to some form of intervention President Wilson would no longer oppose it.

The Bolsheviks now have shown themselves unlikely to invite intervention by Japan, and feeling seems to run so high on this subject in Bolshevik circles that several members of the Allied faction of the Revolutionary Executive were arrested for favoring this. In view of this situation and Wilson's pledge to Russia that the United States would stand by her the Allies may decide to leave the whole Russian policy in the hands of the United States, as the newspapers suggest.

Emperor Charles Now Sultan's Guest

AMSTERDAM, May 22.—Emperor Charles and Empress Zita of Austria-Hungary arrived in Constantinople Sunday. They were met at the station by Sultan Mohammed, the Turkish Ministers and diplomatic representatives of the central Powers. The royal guests were formally received at a ceremony in the Yildiz Palace. The Sultan, toasting Emperor Charles at a dinner given at the Imperial Palace, is quoted in a Constantinople dispatch received here as saying:

Two Women Reach Safety After Perilous Flight From Siberia

By George F. Steward
(Special Cable to The Tribune)

AMSTERDAM, May 22.—After three months of perilous adventures and great sufferings, two Englishwomen, Mrs. Butcher and Mrs. Taylor, have arrived here with Mrs. Butcher's two children. They have come by way of Russia and Germany from Siberia, which they left at the time of the worst Bolshevik chaos.

The party began their hazardous journey in a wagon bought for \$150. They persuaded the authorities to mount it on a truck coupled to a train going to Petrograd, it being impossible to obtain accommodation in the ordinary way.

In this wagon, which was boarded against possible attack, the women and children spent four days, never stepping outside, being supplied with water by a soldier, whose services as guard they obtained. They arrived in Petrograd when the Russian capital was in the hands of the extremists, who took away their passports for Sweden, where they had hoped to find a railway communication, they hired a sled, on which they crossed the Gulf of Finland to the Åland Islands.

to the state of war between the Central Allies, on the one hand, and Russia and Rumania on the other, constitute an undeniable proof of our desire to terminate this murderous war."

Allies Warn Finland To Guard War Railway

LONDON, May 22.—Any measures directed by Finland against the Mourmansk Railway will be regarded by Great Britain, France and the United States as a breach of neutrality, the "Dagblad," of Stockholm, says. A Stockholm dispatch to "The Morning Post" quotes this newspaper to the effect the Finnish government has been so informed by Great Britain.

The Mourmansk Railway was built after the war began, primarily for the purpose of giving Russia another port of entry for war supplies. It runs from Mourmansk, on the Arctic coast, across the Kola Peninsula, to a junction point with the Archangel-Petrograd line.

French and British marines for some time have been guarding the war materials stored there. These troops were reinforced recently by a British expedition. Last month a party of Finnish White Guards made an attempt to cut the railway line.

Bread Distribution Stopped in Petrograd

(By The Associated Press)

MOSCOW, Monday, May 13.—There is under way a marked exodus of Entente Allied subjects from Russia. The distribution of bread in Petrograd will cease to-morrow. It will be replaced by half a Russian pound of potatoes. Flour is unobtainable even with doctors' prescriptions. Sugar costs 50 rubles a pound.

Germany Promises to Take Part in Peace Conference at Kiev

(By The Associated Press)

MOSCOW, May 16.—Count von Mirbach, German Ambassador to Russia, has promised M. Tchitcherin, Bolshevik Foreign Minister, to send a peace delegation to Kiev. He said that the governmental change in Ukraine necessitates changes in the personnel of the delegation from the republic, and that Kiev was suitable as a meeting place for the delegates.

The armistice among the Russians, Germans and Ukrainians on the Kursk front has been extended to Voronezh and Briansk.

In connection with this announcement, Leon Trotsky, Bolshevik Minister of War and Marine, has declared the Kuban and Don districts under martial law and has ordered the disarming of bands which have invaded Russian territory, despite the armistice.
